OFFICE MEMORANDUM

DC/CI/SIG  
CI/OA [ ]

FROM : CI/MRO

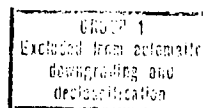

SUBJECT : Release of Notes and Materials to ZUBER

REFERENCE: EGMW-15236, prepared 25 October 1966

[ ] note to me indicates that I am to review the materials, including the notes in German, and remove items which I feel should not go. I don't mind helping in this, but it is not my responsibility, my German is almost nil, and a one-man judgment (in the face of anticipated objections from EE/G and Systems Group) doesn't make sense. This calls for review by a group of us which can decide what can go, what has to be sanitized, and what can't go. (A question I can't answer for the Staff, for example, is whether we release dispatch forms, in view of their potential use in disinformation. Personally, I wouldn't.) I suggest that [ ] call such a meeting as soon as it can be arranged. Once we have agreed on where the Staff stands, then [ ] could return the package to EE/G for re-working (I feel strongly that the Staff does not have to do the sanitizing just because the Staff objected). I could discuss the matter with [ ] to see whether he was aware of the admonition for caution, and whether this was passed along to others. In view of the sign-off on the 8 April 1966 memorandum, and [ ]'s agreement, I think we can take a pretty strong position on this. (I wonder what private notes ZUBER made, and whether

he actually expected to receive this whole package? Do we have copies of the several sets of questions ZUBER brought with him? If not, EE/G should be asked to make copies and have them translated.) Incidentally, both C/CI/OPS/EUR and C/DDP/SG must be added to the coordination.
